Policy for Adults Designated to Attend the MATHCOUNTS National Competition with the California Team

Applicability

This policy is applicable to coaches, assistant coaches, chaperones or any adult specifically designated to supervise the California MATHCOUNTS Team while traveling to and attending the National Competition.

Policy

At least two adults (the official team coach and at least one other individual) will be designated by the California Society of Professional Engineers Educational Foundation (CSPEEF) Board to travel with and supervise the minor attendees at the National Competition. The minor attendees must be supervised at all times and at no time should an adult be alone with a minor (except in the case of a parent with their child).

All adults designated to supervise minors at the National Competition are encouraged to complete mandated reporter training. Free mandated reporter training is available online: **Child Abuse Mandated Reporter General Training for California**
